OGDEN CITY, UTAH, THURSDAY EVENING, FEBRUARY 10, 1921.

Quite often the most interesting news of the day is to be found in the want-ad section.

LAST EDITION—4 P. M.

BOARD REFUSES TO BREAK WAGE AGREEMENTS

IRISH REPUBLICAN ARMY MARCHING ON TOWN

SHIBBEREEN IS OBJECT OF SINN ATTACK, REPORT
Lloyd George Defiant Toward Threat of Strike Over Erin Shooting
Killing of Railway Men Causes Trouble

PISTOLS, AXES, FIRE HOSE AND SULPHUR USED TO NAB SLAYER

PHILADELPHIA, Feb. 10.—A six-hour battle between a negro, who had shot and killed a woman in the house where he was living, and nearly a hundred policemen and firemen, resulted in the capture of the man, mortally wounded and the injuring of four policemen. Pistols, axes, high pressure fire hose, sulphur candles and other chemicals were used against the negro who had barricaded himself in the house.

The siege began after the negro, who was known as William Dresen, "Alabama Joe" and other names, had shot Grace Robinson, a negress, and thrown her body out of the house.

MARINES WHO WRECK PAPER UNDER ARREST

Secretary Daniels Considers Charges Against 21 Americans Serious and Awful

WASHINGTON, Feb. 10.—Twenty-one American marines attached to the legion guard at Managua, Nicaragua, have been arrested by American military authorities as a result of the wrecking of the plant of the newspaper La Tribuna at Managua, yesterday. Secretary Daniels announced today that the marines were considered "abusive and libelous" and that the government was considering charges against them.

The marines were arrested after a riot broke out in the city of Managua, in which the newspaper plant was destroyed. The marines were accused of being the authors of the riot.

ELECTRIC RAILWAYS KEEP FORCES BUSY

CHICAGO, Feb. 10.—During the 1920 business depression, "the little old trolley car has rattled right along" and "out of two million and more men out of work in the United States, not one is an employee of an electric railway," P. H. Gadsden, president of the American Electric Railway Association, declared today at the organization's mid-year conference.

Since 1917, said the speaker, who made the opening address of the meeting, wages on electric railways increased 55 and 150 per cent respectively, but, opposed to this was only a 40 per cent increase in fares. Only 16 of the 943 traction companies in the country failed.

CHARGE N. Y. POLICE SHIELDED SLAYERS

NEW YORK, Feb. 10.—Police records said to relate to the alleged suppression by police of evidence in murder cases last year were ordered before the grand jury today by former Governor Charles S. Whitman who is investigating alleged corruption in municipal affairs.

Intentional suppression of evidence in some cases and gross negligence in others was said to have been found by the investigators. In this connection they said only one conviction for first degree murder was obtained last year in 139 cases submitted to the grand jury.

LANGDON INCIDENT HELD NOT SERIOUS

TOKIO, Feb. 10.—The official investigation of the recent killing by a Japanese entry at Vladivostok of Lieutenant V. H. Langdon, of the American cruiser Albany has not been concluded. General Tanaka, minister of war, today made this statement in reply to questions in the diet as to what the result of the court-martial was and what effect it would have upon the relations of the United States. Mr. Tanaka added that there was no fear of the relations between the United States and Japan becoming strained as a result of the shooting.

BRYAN GIVES VIEWS ON PLAN TO REVIVE PARTY

Voters Won't Join Unless They Can Control Organization, He Avers

MIAMI, Fla., Feb. 10.—"If the Democratic party is going to be a force in this country it must have members, and the voters will not be willing to act through the Democratic party unless they can control it," said William Jennings Bryan at his winter home here today in discussing the announcement yesterday in New York by former Judge R. C. Roper, of Nebraska, that Mr. Bryan and his brother Charles, planned a reorganization of the party.

Mr. Bryan said he had not known that a definite date for the launching of the movement had been set as announced by Judge Roper.

YOUNG GIRL CALMS FIRE PANIC ON SHIP

HAVANA, Cuba, Feb. 10.—Kitty Butler, eight years old, shared heroic honors with a pet parrot in a tale of fire at sea told by passengers landing here yesterday. The little golden-haired girl, who is a daughter of Edward Ware Barrett, a newspaper publisher of Birmingham, Ala., refused to enter a lifeboat until she had brought her parrot from her stateroom and her insistent demand that the bird be rescued calmed something approaching a panic.

Frightened men and women paused to laugh at the calmness of the child and her concern over the safety of her pet, and when the steward brought the parrot to the deck, he also announced the fire, caused by an overheated motor, had been brought under control by the chief engineer.

LIVESTOCK GROWERS OF SOUTH COMPLAIN

CHICAGO, Feb. 10.—Appeals for relief from high freight rates on livestock in the southwest were on file today before the interstate commerce commission, made by representatives of Armour & company. The plant of Armour & company at Tifton, Ga., was closed down principally because of the high rates, it was declared by W. W. Manker. Twenty-eight Southern railroads are named in the petition, and refunds of nearly \$40,000 are sought. The livestock industry in the south will soon be history, he asserted, unless the railroads come to the assistance of producers.

HARDING BACK AT WORK AFTER HIS VACATION

President-Elect to Hold More Conferences to Select Men for Cabinet
FOUR POSITIONS SEEM TO BE DECIDED UPON
Decisions Not to Be Announced Until Shortly Before March 4, Belief

ST. AUGUSTINE, Fla., Feb. 10.—Back at work again today after a three weeks' vacation, President-elect Harding made into a vast accumulation of correspondence and other miscellaneous business that must be cleared away before he can give serious thought to final decisions on the personnel of his cabinet and other major problems.

Mr. Harding returned to St. Augustine last night from his houseboat cruise along the Florida coast and established offices in the St. Augustine hotel, which will be his home until he leaves for Washington to be inaugurated.

CERTAIN SELECTIONS

The cabinet appointments which Mr. Harding's close friends believe to be virtually determined, are confined to the portfolio of state, justice, post office and agriculture. Charles Evans Hughes, of New York, for secretary of state; Harry M. Daugherty, of Ohio, for attorney-general; Will H. Hays, of Indiana, for postmaster-general; and Henry Wallace, of Iowa, for secretary of agriculture, are selections which those in position to know now regard as practically certain.

Yet even in respect to these it is realized that there may be many a slip between the first of February and the first of March.

LOWDEN MENTIONED

Frank O. Lowden, of Illinois, is another mentioned as a possibility for secretary of the navy, and the friends of Andrew M. Mellon, of Pennsylvania, still are urging his qualifications for secretary of the treasury.

Senator A. B. Fall, of New Mexico, is believed to be under serious consideration for secretary of the interior, and whether he goes into the place, it is understood to depend largely upon his own inclination. For the same place John Hays Hammond, of New York, is being strongly recommended by some Republicans.

MORE CONSULTATIONS

It is in regard to the secretaryships of labor and commerce that Mr. Harding's mind is believed to be farthest from a decision. In connection with the labor portfolio, one of the latest to receive prominent support is J. A. Davis, of Pittsburgh, Pa., formerly a steel worker and now a banker.

It is certain that Mr. Harding will take no definite steps until he has held further conferences with his advisers, and next week is expected to see the beginning of a series of consultations here that will bring a decision. It is unlikely that any appointment will be announced, however, until a day or two before the inauguration.

DRUG STORE TO PAY RECORD RENT BILL

NEW YORK, Feb. 10.—Virtually all the ground floor in the Knickerbocker building, formerly the Knickerbocker hotel, Broadway and Forty-second St., has been leased for five years, by a widely known chain drug store, on an aggregate record-breaking rental exceeding \$3,000,000. The lease, which James J. Regan held on the property, was bought back by Vincent Astor about a year ago and the building was made over into an office structure. The location, directly opposite Times Square, is one of the busiest spots in the world.

TOOK SEVENTH WIFE THROUGH AN ERROR

ATLANTA, Ga., Feb. 10.—"Uncle" Newt Liming, aged 80, told Judge Hathcock yesterday that with all his seven marriages he had never intentionally had more than one wife at a time. An erroneous report that number six had died caused him to marry number seven, the aged negro said, and the court was impressed by the extent of reducing ball from \$300 to \$200 and "Uncle" Newt got back to his peddling business, his 17 children, and his record as a veteran fighter of the Confederate army.

CATHOLIC PARADERS HELD FOR REMARKS

MEXICO CITY, Feb. 10.—Six prominent Catholics who were arrested Tuesday night during a parade in protest against the bombing of the home of Archbishop Mora were today placed at the disposal of the attorney general who will bring them to trial. They are charged with making seditious utterances during the parade, which was attended with more or less disorder.

Roads Lose First Round in Fight to Cut Employes' Pay

CHICAGO, Feb. 10.—The federal railroad labor board today denied the request of the American Association of Railway Executives for immediate abrogation of the national wage agreements with the brotherhoods and establishment of a new basic rate for unskilled labor predicated on local conditions.

CHINESE EGGS BY MILLIONS ARRIVE IN U. S.

VANCOUVER, B. C., Feb. 10.—More than 10,000,000 Puget Sound and Chinese eggs have arrived here from Seattle, Washington, for forwarding to New York, Philadelphia, Boston and other eastern points.

The Chinese eggs in the shipment, about 8,000,000, are said to be consigned to confectioners and bakers.

FROM FARMER TO CONSUMER PLAN ADVISED

Nebraskan Wants City Residents to Organize to Eliminate Middleman

CLEVELAND, O., Feb. 10.—Establishment of direct marketing between farmers' organizations and city consumers' organizations and co-operative banking institutions, operated by farmers' organizations and labor organizations, was recommended by G. H. Gustafson, of Lincoln, Neb., on opening the second All-American Co-operative Congress here today for a three days' session.

"Farmers and labor represent the two largest interests in the country," said Mr. Gustafson, "and they must understand each other if they are going to be able to free themselves from the strangle hold which financial and other big interests now have on them. Producers should organize," said Gustafson, "and provide the necessary machinery for delivering their products to the gates of the city markets. City consumers should organize to provide the machinery of distribution, thus eliminating the middle man and waste."

Gustafson declared it would be impossible for either farmers or labor to accomplish anything until they had finance co-operative projects. He said legislation would be sought permitting co-operative banking in many states.

PLANTS REOPENING PUT WORKERS BACK

CAMBRIDGE, Mass., Feb. 10.—The re-opening of all departments of the Ford Motor Company's assembling plant here was announced by the New England manager, R. E. Jones.

MILWAUKEE, Wis., Feb. 10.—More than 400 men will be taken back into employment when the Milwaukee branch of the Ford Motor company reopens Monday.

SPRINGFIELD, Mo., Feb. 9.—The Woods Everett Stove company resuming production today on a part time basis after having been closed since December.

MODesto, Calif., Feb. 10.—After being closed since January, the Borden Condensed Milk plant here, employing approximately 300 men, is to open again February 21, according to announcement by the company today. The plant was closed because of the glutted condition of the condensed milk market, it was said. Recent developments in marketing conditions have relieved the pressure and work will start at full time.

CHARGE FILIPINOS SHOT MEN WHO SURRENDERED

MANILA, P. I., Feb. 10.—Constabulary soldiers fired a volley instantly killing Augustus Jacuman, American army field clerk, and Policeman James W. Driskell, an American, in the riots here December 15, after these two victims had held up their hands, it was testified by a Filipino street car conductor in the trial of seventy-seven constabulary soldiers accused of murder.

The soldiers first ordered the victims to hold up their hands, and fired when the two obeyed.

A Chinese witness testified having seen thirty constabulary soldiers marching down the street with arms drawn and in charge formation.

The riot was an outcome of feeling between the Philippine constabulary forces and the Manila police.

BOYCOTT ONE GERMAN PLAN AGAINST TERMS

Importers and Exporters Look for American Sympathy for Movement

BANKER IN HAMBURG GIVES HIS OPINION

Havoc to World Will Follow Unfair Conditions, Former Commissioner Advises

BERLIN, Feb. 10.—(By The Associated Press.)—The president of the Hansa league, comprising 300,000 members and including all principal importers and exporters, said today, in connection with the announcement that the league was urging a boycott of French and English goods unless the reparations demands were modified, that there was widespread sentiment among the league members to use this method in protest against the allied demands. He added that he was supporting the movement.

The president added that the league was arranging to proceed with an intense propaganda campaign which was expected to culminate in a boycott agreement shortly after the London conference if the German counter proposals on the reparations demands are rejected.

SHIPPING TO SUFFER

The announcement also was made that the Hansa league realizes that German industry, particularly shipping, would suffer from a boycott, but that it hoped the effort would have the effect of such a movement by an increase of north and south American trade. Those in favor of the boycott express the belief that the chief advantage from such a movement would accrue to the United States, where they expect business to give the necessary support.

HAVOC PREDICTED

HAMBURG, Feb. 10.—(By The Associated Press.)—Dr. Carl Melchior, who was the German financial expert at Versailles and London and who is a partner in the Warburg bank, told The Associated Press, Wednesday that if the spirit of the Paris reparations decision remains in the London conference, "havoc must follow which the world will feel."

He said Germany must give to her limit, but that the allies must not demand beyond that limit. He added that the conference at London would become a blessing to the world if it accomplishes constructive work based on what is possible. Even the danger or havoc must not force the German government to a pledge of several dollars for each dollar which with the utmost difficulty it perhaps might be able to pay.

REBIRTH OF NORMALTY

"The rebirth of normal conditions in Europe and a corresponding beginning of an economic house cleaning for the world will depend upon a fair and final solution of the reparations problem," he continued. "The decision of Paris shows no progress, but rather retrogression."

Dr. Melchior declared that he saw a black future for German-American trade should the Paris demands be enforced, and that the world would be impoverished, he added, that prompted people to say Germany had done little or nothing in the way of reparations and now was attempting to crawl out of her duty. He pointed out that the amount paid and credited to reparations was 20,000,000,000 gold marks. "Here in Germany," he said, "every intelligent person fully realizes that Germany must make reparations to the utmost limit of her ability."

INSURANCE FIRMS END AUTO REWARDS

NEW YORK, Feb. 10.—In the future, instead of offering rewards for return of stolen automobiles, insurance companies in this city will pay rewards only for arrest and conviction of the thieves.

This was announced in a circular letter from the Automobile Underwriters' Detective Bureau received by former Governor Whitman, conducting the investigation into alleged corruption in city affairs. This letter stated that 102 of the 126 insurance companies in the eastern territory have adopted the plan. The action was taken after it had been charged police were working with thieves, sharing in rewards offered for recovery of cars.

DUSTING TREES TO REPLACE SPRAYING

BOSTON, Feb. 10.—Dusting trees is better than spraying them as a preventive of pests, the Massachusetts Fruit Growers' association was told by E. H. Dudley, state horticulturist for Maine. Dudley has been proven by tests in Maine to be quicker and more effective than spraying, he said. The material used is arsenate of lead, sulphur and tobacco dust.

POLICE CLOSE UP HAVANA NEWSPAPER

HAVANA, Cuba, Feb. 10.—Police authorities last night closed the plant of the Cuatro Poder, a Liberal daily, and seized copies of an edition containing a story that a military uprising had occurred at Matanzas. Officials deny there is any foundation for the story.

WEATHER
Partly cloudy in the morning, but in south portion tonight and Friday, not much change in temperature.
